MEMORANDUM FOR THE RECORD

- 1. I met with Mr. Powers and Mr. McMahon for about an hour yesterday afternoon discussing at considerable length the air defense matters connected with his accident and other operational considerations. Toward the end of the meeting he handed me the attached letter for the Director. We discussed only casually the problems involved in his publishing a book at this time and he reluctantly acquiesced to our desires.
- 2. In closing he pointed out, however, that his letter stated that at some later date he might reopen the matter. Everything was completely amicable and cordial and I see no further problem.
